📄 Summary

Data Analyst with nearly 3 years of professional experience at CBRE in operations, reporting, coordination, and process management, complemented by a 6-month Data Analyst internship at B Dreams Global Solutions. Proficient in SQL, Python, Power BI, and Advanced Excel, with hands-on experience in data cleaning, data analysis, data modeling, dashboard development, and business reporting. Experienced in operational reporting, occupancy analysis, and management presentations. Seeking a Data Analyst role to leverage technical skills, analytical expertise, and business understanding to generate actionable insights and support data-driven decision-making.

👛 Professional Experience

04/2026 – 09/2026
Bengaluru, India

B Dreams Global Solutions

Data Analyst Intern

- Completed a 6-month internship in data cleaning, transformation, analysis, and visualization.
- Used Python (Pandas, NumPy, Matplotlib, Seaborn) and SQL (MySQL) for data analysis and business insights.
- Developed interactive Power BI dashboards using DAX, data modeling, KPIs, and visualizations.
- Applied Advanced Excel and analytics techniques in Amazon E-Commerce Sales & Inventory Analysis and Customer Shopping Behavior Analysis.

07/2024 – 01/2026
Bengaluru, Karnataka

CBRE

Senior Helpdesk Executive

- Promoted from Helpdesk Executive to Senior Helpdesk Executive, taking on increased responsibility for helpdesk operations, team coordination, and service delivery.
- Collected, maintained, and analyzed occupancy and operational data - prepared daily, weekly, and monthly reports, presentations, Minutes of Meetings (MOMs), and management updates.
- Used Advanced Excel and Power BI for operational reporting, data analysis, occupancy tracking, and management presentations.
- Led daily helpdesk operations, managed escalations, customer concerns, service requests, and ticket closures, and coordinated with stakeholders and departments for timely resolution.
- Managed professional email communication and correspondence with residents, clients, stakeholders, and internal teams, ensuring timely follow-up on concerns and operational updates.
- Managed move-in/move-out processes, payments, fit-out documentation, resident communication, and operational records.
- Successfully managed two complete helpdesk handovers, including documentation and coordination of the overall transition.

03/2023 – 06/2024
Bengaluru, Karnataka

CBRE

Helpdesk Executive

- Managed daily helpdesk operations, handling customer inquiries, service requests, issue resolution, and professional email communication.
- Prepared and maintained daily operational reports, monitored pending requests, and coordinated timely follow-ups and resolutions.

- Maintained accurate resident records, service data, and feedback to support reporting accuracy, data management, and service quality.
- Coordinated with internal teams to ensure smooth service delivery, maintained HOTO documentation, and supported operational records and administrative processes.

01/2023 – 03/2023
Bengaluru, Karnataka

Casa Grand

Helpdesk Executive

- Gained foundational experience in helpdesk operations, customer service and administrative support.
- Handled customer queries, service requests, complaints and email communication, ensuring timely follow-up and coordination.
- Maintained customer and service records and supported daily operational reporting and documentation.
- Coordinated with internal teams and relevant departments to support smooth service delivery and routine administrative activities.

Skills

SQL

MySQL, Joins, Subqueries, CTEs, Window Functions, Aggregate Functions, Stored Procedures

Python

Pandas, NumPy, Matplotlib, Seaborn, Data Cleaning, Data Analysis

Power BI

DAX, Power Query, Data Modeling, Measures, Interactive Dashboards, Data Visualization

Microsoft Excel

Advanced Excel, Pivot Tables, VLOOKUP, XLOOKUP, Data Cleaning, Data Analysis, Formulas, Reporting

Projects

08/2026 – 09/2026

Amazon E-Commerce Sales & Inventory Analysis

Python, SQL, Power BI, Advanced Excel

- Cleaned, preprocessed, and transformed sales and inventory data using Python (Pandas and NumPy).
- Used SQL joins, aggregations, filtering, and grouping to analyze revenue, sales trends, product categories, orders, and inventory.
- Built an interactive Power BI dashboard using data modeling, DAX measures, KPIs, and visualizations to monitor performance and identify business insights.

04/2026 – 07/2026

Customer Shopping Behavior Analysis

Python, SQL, Power BI, Advanced Excel

- Cleaned, preprocessed, and performed exploratory data analysis (EDA) on customer shopping data using Python (Pandas and NumPy).
- Used SQL queries, aggregations, and filtering to analyze customer segments, purchase frequency, subscriptions, discount usage, and shopping preferences.
- Developed an interactive Power BI dashboard with KPIs and visualizations to identify purchasing trends and generate actionable business insights.
